

Table 4 Cost benefit analysis of experimental diets

Feeds	Feed preparation cost (Tk/kg)	Total feed used (kg)	Total feed cost (Tk)	Fish production at the end of experiment (kg)	Cost per unit production (Tk)
D1	36.5	12,000	438,000	6,083	72
D2	33.5	12,000	402,000	6,000	67
D3	31	12,000	372,000	5,904	63

Note: Comparison of cost per unit production (Tk/kg) in different treatments
