

Table 4 Pairwise Nei's genetic distance (below the diagonal) and  $F_{ST}$  (above the diagonal) between *P. amabilis* populations. HS indicates highly significant genetic differences between the populations ( $p < 0.05$ )

Pop	CT	BH	ZJ
CT	-	0.036 <sup>HS</sup>	0.032 <sup>HS</sup>
BH	0.099	-	-0.002
ZJ	0.123	0.067	-
