Table 9 Comparison of prevalence % among treated groups after (30 min.) treatment (G: group; W: week)

	W1	W2
Control –Ve(G1)	0 (0.0%)	0 (0.0%)
Control +Ve(G2)	27 (90.0%) [a]	28 (93.3%) [a]
100 ppm (G3)	16 (53.3%) [b]	8 (26.7%) [b]
200 ppm (G4)	13 (43.3%) [b]	6 (20.0%) [b]

Note: Percents within the same column not sharing the same subscript are significantly different at $p < 0.05$ in the two-sided test Z-test. Tests are adjusted for all pairwise comparisons using the Bonferroni correction
